Bharat Floorings & Tiles

**The Bharat Floorings Group** is a leader in quality cement floorings for over 85 years. Started in 1922 as a part of the Swadeshi movement, when the first stirrings of vibrant nationalist pride were sweeping the country, Bharat Floorings pioneered the cement tiles industry in India and made Quality, Integrity and Service its singular work ethic through the decades. The Group has expanded into high quality installation of all types of floorings, civil contracting and facility management services.

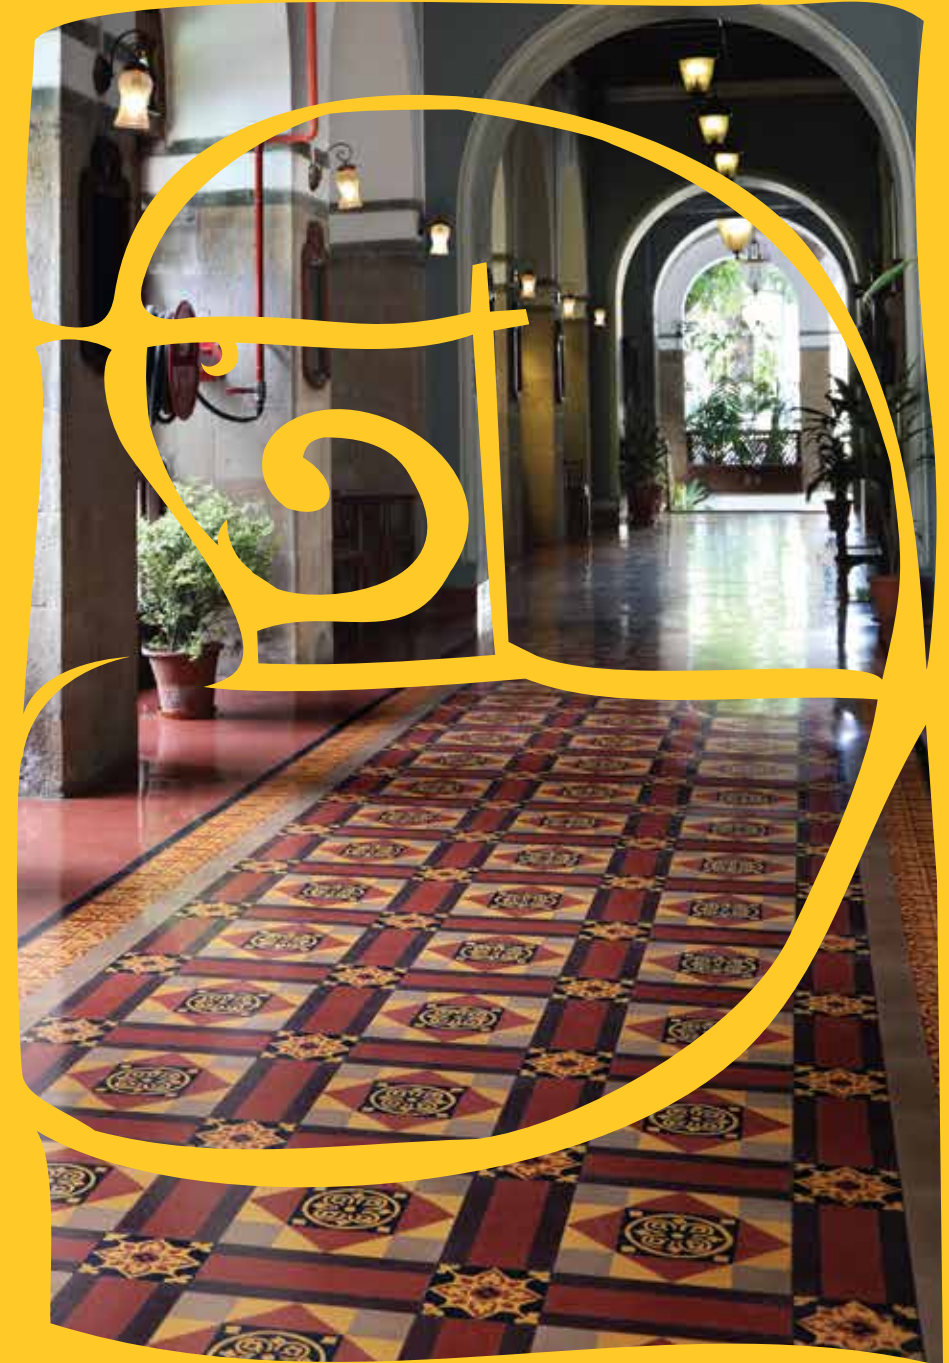

Royals and commoners alike have walked over floors laid by the Bharat Floorings Group in landmark buildings all over India –in the exquisite palaces of Maharajas, in imposing Raj Bhavans, in prominent residences, elegant hotels, in quality conscious hospitals, offices, factories, housing societies, educational and religious institutions, airports, railways etc., wherever people wanted enduring quality and real value. Our customers have testified that Bharat’s floors have retained their beauty and elegance even after decades of constant use.

“A thing of beauty is a joy forever”  
- John Keats

The Importance of Our Heritage

Bharat's Heritage™ Tiles

Bharat's Heritage™ Tiles are custom designed to create stunning floors to suit eclectic tastes. Each cement tile is individually handcrafted from the finest, carefully selected elements, aesthetically blended to create a high quality tile in rich and glowing colors. The timeless elegance and durability of these tiles make them works of art and an invaluable part of the country's architectural heritage.

The founders of the Bharat Tiles Company traveled across Europe and USA and brought the finest elements of this art form to India. They modified and created fresh designs to suit Indian tastes and developed a unique process to suit Indian conditions.

#### UNITINTA™

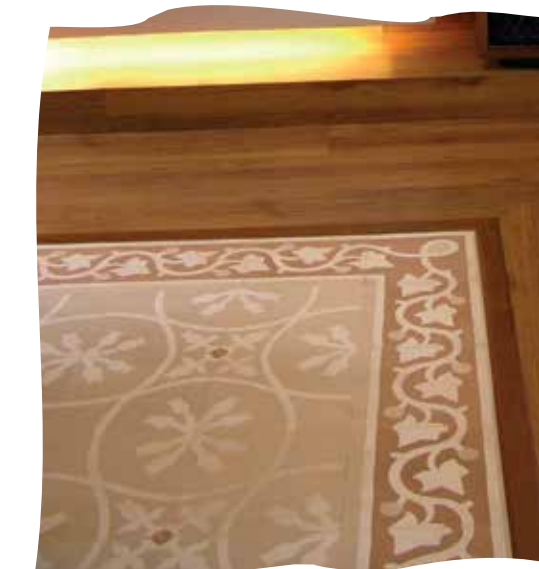

Bharat's Unitinta™ Tiles can either be laid by themselves to get a lovely monochromatic floor, with gentle variations of shade, or combined with Heritage tiles, borders or medallions to create unique designs for a simpler Heritage ambience. Elegant or ethnic, contemporary or classic, the floor is a canvas for Bharat's floor art and displays the expertise and ingenuity of the artist-designer.

#### FUSION FLOORS

Designer floors are tailor-made according to the client's specifications and reflect the customer's taste and personality, using a range of materials to create a signature look.

Inspired interiors have combined natural marble and stone with heritage borders and carpets, Terrazzo with Unitinta inlays, wooden parquets with designer carpets and borders. You dream, we create! A fusion not merely of materials, but of desires, aspirations, craftsmanship and skills.

Each Heritage™ Tile is handcrafted and then mechanically processed for strength. Unlike mass produced products, some irregularities in line and some variations in shades, are the hallmark and charm of hand crafted products. High quality cement floor art can provide a lifetime of beauty, but takes time to produce and install. So please do contact us at the earliest !

For more designs and Unitinta™ colour chart, visit our website at [www.bharatfloorings.com](http://www.bharatfloorings.com).

#### Premium Terrazzo

Terrazzo is one of the most popular, attractive and versatile tiling options available. Made by mixing marble, granite, quartz, or glass chips into a cement binder, terrazzo is subtly elegant, cost effective and tough.

**Art Deco**, an architectural and design style developed in the 1930s, has not lost its appeal in over 75 years. A striking art form characterized by geometric patterns, angular designs, and striking colour combinations, the Art Deco aesthetic is both beautiful and unique.

High quality Bharat terrazzo can achieve a stunning look in a range of colours and effects that stone can never achieve at a price that provides real value. Innovative terrazzo floors combine Heritage borders and inserts, hexagons, octagons and rectangles to create unique floor and wall decor.

High quality cement floors can provide a lifetime of beauty, but take time to produce and install. So please do contact us at the earliest for your requirements!

## Ecoston<sup>TM</sup> Terrazzo

### ECOSTONE<sup>TM</sup>

Bharat Floorings has always been committed to social responsibility. We are the first company to introduce 'Green' tiles in India under the brand name 'Ecoston<sup>TM</sup>'. These tiles, though made out of recycled consumer and industrial waste, are beautiful for decades, thereby providing lasting value to clients and best conserving the earth's resources.

Bharat's Ecoston<sup>TM</sup> product range conforms to and goes beyond the LEED Green Building rating system. **Please visit our website to learn more.**

### IN SITU TERRAZZO

Here at Bharat Floorings, we have been installing in situ terrazzo floors since 1923. With large panel sizes, you can get a lovely seamless look at your site. We use the very best materials and jointing is done using glass or metal dividers.

### TERRAZZO GRANDEZZA

This is Bharat's new offering of large terrazzo slabs for those who love seamless beauty.

For more details and materials visit [www.bharatfloorings.com](http://www.bharatfloorings.com) or contact us. Terrazzo combines natural materials with cement. Slight variations in colour and fine crazing are normal.

## Beautifying Open Spaces:

### Terra Natura<sup>TM</sup>

Terra Natura™, the Bharat Floorings decorative concrete system based on imported technology, allows designers to create spectacular paving effects in myriad patterns, textures and colors to transform ordinary concrete surfaces into lifelike recreations of natural stones, slates, tiles, bricks and cobblestones. Decorative surfaces are created at the time of laying normal ready mix concrete. With a range of different textures and dozens of creative color combinations, decorative concrete has become a popular, international paving system of choice for homes, hotels, building complexes and pavements.

Terra Natura™ transforms outdoor living areas such as decorative patios, walkways and driveways into havens of elegance and charm, in a surprisingly cost effective manner.

Terra Natura™ colours are derived from natural materials and shades will therefore have variations from indicative samples.

Functional Art: STILAN® Tiles

**STILAN® NON-SLIP**

Bharat's special range of Non-slip (chequered) tiles in attractive colours, designs and combinations provide lasting beauty for pavements, compounds, driveways, car parks, poolsides and terraces. These tiles are available as **STILAN®** Non-slip to withstand heavy vehicular traffic such as trucks, or Regular Non-slip for light vehicular and pedestrian traffic. Bharat's Non-slip tiles provide convenience and durability unmatched by other out-door floors.

**STILAN®** is our registered trademark. **STILAN®** Tiles are available exclusively from Bharat Floorings & Tiles (Mumbai) Pvt. Ltd. **STILAN®** Tiles can last for decades but take time to produce and install. So please contact us at the earliest for your requirements!

## COLOUR CHART

These colours are indicative. Cement colour shades will be slightly different from printed colours. Though we use the finest ingredients and blend these with utmost care, variations in the shades of raw material can lead to variations in the shades of raw materials can lead to variations between batches. These are the hallmark and charm of handcrafted products.

**Note: blue and green colours are not recommended for use in sunlight.**
