*The love of beauty is taste.
The creation of beauty is art.*

- Ralph Waldo Emerson

Bharat Floorings and Tiles is the leader in quality cement floorings - a reputation held for over 90 years. In 1920, we pioneered the cement tiles industry in India as part of the Swadeshi movement. Today we offer various specialized types of floorings from custom made designer tiles to Terrazzo all made with the same dedication to quality and design. Our Heritage™ tiles are still handcrafted using traditional processes creating a unique product that ages gracefully with time. It has been used in some of the best - known floors in landmark buildings, over the decades. Presenting to you a display of some of the best-known floors across cities.

Bharat Floors are a part of India's history

Established in 1922, Bharat Floorings and Tiles was started by Pheroza Sidhwa and his nephew Rustom Sidhwa. During India's struggle for freedom, a speech by Mahatma Gandhi's colleague Jamshed Mehta, about using imported British good to achieve economic freedom inspired Pheroze to make coloured cement tiles that could become the world's finest. They used premium Italian and German technology and modified this to suit Indian conditions. The result was uniquely designed coloured cement tiles. Such was the grandeur and exclusivity of the tiles, which imports of the same stopped. Since then there has been no looking back. Bharat has floored for Maharajas, Governors, discerning architects, designers, clients and even UNESCO heritage sites for more than 90 years. The history of Bharat Floorings is the history of India's floor art for almost a century.

True art takes time

Working with a beautiful colour palette and a range of unique designs, Bharat Floorings and Tiles (BFT) creates customised designer floors, which are a reflection and extension of our clients' personalities. Each tile is first hand drawn before being mechanically processed. Unlike mass produced products, slight irregularities in lines and some variation in shades are the hallmark and charm of our handcrafted products. We believe in conserving authenticity within our tiles and hence use processes that may retain Chinese porcelain glaze but enhance the antique looking aspects of them. The elegance of Bharat's floor art is timeless, and their silken sheen improves over the years.

*Since all tiles are made to order, we require 4 to 6 weeks to craft you a floor of enduring beauty.
This book brings to you a small sneak peak into Bharat's floor art.*

Installation of tiles

Since the tiles are designed with such care and special treatment, the same should be applied to their installation. Bharat Floorings not only provides free leaflets on floor installation, floor care and maintenance, we will also help approve a contractor for the fittings. Also, to help you ensure the upkeep and maintenance of the tiles, we also provide floor cleaning materials particularly made for our products. To ensure your floor is an original Bharat Heritage™ or Unitinta™ floor, contact us directly at any of our addresses.
